## COTTON STILL HIGHER.

Market Advanced Gradually Until the Close of the Day.

BEAR HOUSES SAID TO HAVE BOUGHT

Liverpool Was Also a Buyer-Move ment Was Light-Spots Retain Their Strength.

Futures 4 to 8 points up. Spots firm and unchanged. Liverpool 1-84d up.

Houston, Wednesday, January 10. Cotton again demonstrated its inherent strength today in a manner which was more than astlefactory to its friends.

Buying was in evidence all during the day and although the markets were rather quiet they were firm, and the advance was gradual from the opening to the close

A feature of the day which excited comment in all quarters was furnished by the fact that several New York houses which have herstofore been on the bear side, towether with one which has been on both eides bought freely, thus indicating that the firm attitude of the South and the prospects of constantly diminishing receipts are having Ordinary. 6th their effect on the people who have held big Low middles ? erep and low price views during the season.

Liverpeol was about as expected, early cables showing that market to be about 1 this condition, the markets on this side around yesterday's closing figures, changed, declines being in evidence in some of the months. Almost immediately, however, Liv-erpool began huying here, and, supposedly, Low middling...7 seiling at home, as prices on both sides bedone by Price and by Allich has been de- were large German house, which has been de- were Ording cidedly hearish betelofers. There was not a at the lowest and the close at the highest of

Livernoel closed about 1-64d higher than vesterday, while New York was 4 to 8 up and New Orleans 6 to 7 higher. Spots were unchanged at Laverpool and at the larger merkers on this side, the tone being steady to firm. Only a moderate amount of business was done.

The movement was quite light, as was expected. Houston received 4051 bales, against 4832 last year and 2803 three years ago while the estimate for temotrow is 3000 to 4000, as compared with 2073 and 4089. The estimate for New Orleans is from 2000 : \$500, against 6433 and 5540. Port receipts 26,051, against 27,467 and 19,574, and recalota at the thirteen countrd towns were February 45.880, against \$1.404 and 40.390 Stocks at April these towns have decreased 7000 during the May . meek, but are still 7,000 larger than last year and 183 000 larger than three yours ago.

trade now presents the appearance of awaiting the developments of the next week October or two, in connection with the movement, and [ seems reasonable to look for a scalping market around present values for the next

March in New Orleans opened at 7.04-05 and closed at 7.12-12, after selling high at 7.14 and low at 7.06. The same month in New York opened at 7.18-20, sold high at 7.28, 7.18 and closed at 7.27-28. The opening on May was at 7.25-26 and the close : 31-34, the high and low selling being done

have again proved unsuccessful, and this element were the buvers today. In New York Liverpool took on large quantities of futures presumably against sales made at home, but the best buying was from Price and Mohr. The latter belongs to the German New Orleans itement, who have been reported as aggressive bears for weeks. They evidently did not tike the way the South was clinging to specification, and the very light revelots posted today. The movement for the next few days will have considerable bearing upon the price of cotton and it is reasonable to suppose that it will be light with present bad weather. We believe however, that any advance of consequence will be mel with liberal offers of cotton and cultivity of the consequence will be used to the price of cotton and cultivity of the consequence will be used to the price of cotton and cultivity of the consequence of consequence will be used to the price of cotton and cultivity of the consequence will be used to the price of cotton and cultivity of the consequence will be used to the price of cotton and cultivity of the consequence will be used to the price of cotton and the price of cotton

Sixulari D.—S. Munn. Son & Co. say of enters.

the knowledge, as they must buy on an un-precedented scale, and then, when they do want it refuse to sell until prices are about two cents higher. We find no confirmation of stock accumulations at uncounted towns.

New York Cotton.

New York, January 16 Speculation in enton continued to show healtaney today, in the B force of decidedly builtish lastors. The marks opened steady with prices unchanged in the prices unchanged in the prices was very slack until liverpool cables showed a net improvement on futures and increased transaction in spot cotton. Following these sevences a cateries movement set in which continued throughout the session. The nortest was sumiliated also by builtish accounts from Southern spot markets, small receipts at ports and small interior and Liverpool receipts. Cables indicated more disposition on the part of foreign sciences to buy cotton on account of a more cheerful view of the oblitical situation. At the best, the market showed a net gain of 9219 boints, after which there was a partial reaction, as the general character of the speculation was not satisfactory. The final phases of the market, however, were better in this respect. As the cracion draw to a close Wall street buying became a failure and local shorts displayed to little alarm. The market was finally very tends at a net gain of 4 to 10 points.

New York Dry Goods. are of decidedly builtsh factors. The market

New York Dry Goods.

New York, January 10.—There has been Drie let pf to change ioday in the market at first hands for any description of cotton goods. Brown blenched and coarse cottons, brints and ginghams have all been in quite moderate demand without change of any moment in prices. The print rioth market is very dull throughout. Woollens and worsted dress goods atrong but current demand quiet, siting firm, with indifferent sales, Jobbers are doing a good business and sales since the being a good business, and sales since the business of the year are well shead of corresponding of the year are well shead of corresponding period last year.

yesterday. Corn and cate closed a shade higher and provisions unchanged to 5c up.

The indifference of Liverpool to the advance in wheat here yesterday weakened the local market at the opening, May at 67%, 951%, showing an initial loss of 1sc. Buyers late yesterday, on the war scare, soid and the price sold off to 67%, where it steadled, and, on reports of a better export demand, laboriously advanced to 85c. On liquidation occasioned by the very light clearances and the liberal primary receipts the raily was lost, May touching 67%, where it steadled, and oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts, in the hanse to cover under pressure of which the market in an oversold condition and shorts held the pressure of the scale of the stack h

The money market was a narrow affair. The prevailing duliness is attributed by traders to tailures of the South African war, but it is not improbable that existing conditions there as well as in the other parts of the world are already discounted.

The bond market was dull and moved in sympathy with railway stocks. Total sales nar value, \$1,025,000.
